

## EDUCATION

---

<b>Seattle, WA</b>	<b>University of Washington</b>	<b>Fall 2021 – present</b>
<ul style="list-style-type: none"><li>• Ph.D. Student Computer Science &amp; Engineering</li><li>• Research in NLP with focus on fact verification and its societal challenges.</li><li>• Advisor: Yulia Tsvetkov</li></ul>		
<b>Pittsburgh, PA</b>	<b>Carnegie Mellon University</b>	<b>Fall 2019 - Summer 2021</b>
<ul style="list-style-type: none"><li>• M.S. Language Technologies GPA: 4.06</li><li>• Research in NLP on language generation, faithfulness of summarization, and representation learning.</li><li>• Advisor: Yulia Tsvetkov</li></ul>		
<b>Cambridge, MA</b>	<b>Harvard University</b>	<b>Fall 2014 - Spring 2018</b>
<ul style="list-style-type: none"><li>• M.S. Computer Science, Advisor: Alexander Rush GPA: 3.875</li><li>• B.A. Physics with Advanced Standing, Secondary in Mathematics GPA: 3.653</li></ul>		
<b>Rome, Italy</b>	<b>Lycée Chateaubriand French High School</b>	<b>Fall 1999 - Spring 2014</b>
<ul style="list-style-type: none"><li>• French Baccalaureate, GPA: 20.4/20.</li><li>• Finalist in the French Math Olympiads, May 2013</li></ul>		

## PUBLICATIONS

## RESEARCH AND WORK EXPERIENCE

---

- |   |   |                                  |
|---|---|----------------------------------|
| <b>Graduate Research Assistant</b>  | <b>CMU Tsvetshop</b>                      | <b>August 2019 - August 2021</b> |
| <ul style="list-style-type: none"><li>• Developed a linguistically grounded benchmark for factuality metrics in abstractive summarization</li><li>• Identified limitations in current metrics and worked on a new factuality evaluation metric</li><li>• Proposed a matrix distributed representation extracted from definitions, each dimension corresponds to a Qualia relation</li><li>• Developed structured summarization system, which is more abstractive and interpretable than baselines</li><li>• Funded by DARPA SemaFor project on detection, characterization, and attribution of falsified news</li></ul> |   |                                  |
| <b>Software Engineer</b>  | <b>Microsoft AI Frameworks</b>            | <b>August 2018 - August 2019</b> |
| <ul style="list-style-type: none"><li>• Contributed to the development and open sourcing of ML.NET, a library internally built by MSR for the past decade</li><li>• Primarily focused on improving model explainability features of the library and building a new API</li><li>• Joined MSR project to explore fine-tuning classical ML models (e.g., decision trees) by converting them to neural networks and using backpropagation</li></ul>   |   |                                  |
| <b>Undergraduate Researcher</b>   | <b>Harvard NLP Group</b>                  | <b>Fall 2017 - Spring 2018</b>   |
| <ul style="list-style-type: none"><li>• Constructed and evaluated latent variable model for neural machine translation relying on conditional VAE</li><li>• Explored recent text generation method to generate news articles headlines by editing prototype sentences</li><li>• Participated in small seminar with Prof. Rush on recent NLP techniques for text generation, reading and presenting papers</li></ul>   |   |                                  |
| <b>Software Engineer, intern</b>  | <b>Microsoft</b>                          | <b>May - August 2017</b>         |
| <ul style="list-style-type: none"><li>• Reduced impact of load operations in Azure distributed database SQL Data Warehouse, through on demand construction of new cluster of compute nodes for bulk load operations, this also improved compression quality</li></ul>   |   |                                  |
| <b>PRISE Research Fellow</b>  | <b>Harvard - Cadence Design Systems</b>   | <b>June - August 2016</b>        |
| <ul style="list-style-type: none"><li>• Filed three patents on a new method to optimize and automate the design of the layout of Printed Circuit Boards</li><li>• Elaborated a new highly parallelizable representation of the problem and developed a heuristic algorithm based on that reached and sometimes improved the performance of current designs</li></ul>  |   |                                  |
| <b>Analyst, intern</b>  | <b>Lonsin Capital Hedge Fund</b>          | <b>May - June 2015</b>           |
| <ul style="list-style-type: none"><li>• Assessed companies' distressed assets and debt, analyzed long term effects of bankruptcy and credit restructuring</li><li>• Received training on options (independently studied Options Swaps and Other Derivatives, Hull)</li><li>• Autonomously started developing an algorithm to assess options' pricing offset with respect to their theoretical value</li></ul>   |   |                                  |
| <b>Marketing, intern</b>  | <b>Geely Auto, Chinese Owner of Volvo</b> | <b>July - August 2015</b>        |
| <ul style="list-style-type: none"><li>• Participated to the organization of a new sponsorship deal for the Chinese National Swimming Team, selected English name for new car models, and produced social responsibility reports</li></ul>   |   |                                  |

---

## TEACHING AND ACTIVITIES

---

- |  |   |                                  |
|--|---|----------------------------------|
| <b>Teaching Assistant</b>  | <b>Harvard Computer Science 1</b>               | <b>Spring 2017 - Spring 2018</b> |
| <ul style="list-style-type: none"><li>• Directed weekly sections for 20 students, held office hours, graded problem sets and advised groups on final projects</li></ul>  |   |                                  |
| <b>Director of FIP, Alumni Chair</b>   | <b>Harvard Woodbridge International Society</b> | <b>Spring 2015 - Fall 2016</b>   |
| <ul style="list-style-type: none"><li>• Director of FIP (Freshmen International Preorientation), a 5-day Harvard Orientation for 150 international students</li><li>• Coordinated a team of 40 leaders, selected among 120 applicants, for the organization of the program</li><li>• Initiated a SIG (Shared Interest Group) for international alumni, a club recognized by the Harvard Alumni Association</li></ul> |   |                                  |
| <b>President</b>   | <b>Harvard European Business Group</b>          | <b>Fall 2014 - Spring 2017</b>   |
| <ul style="list-style-type: none"><li>• Invited prominent European political figures and representatives of major businesses to give presentations: Josep Borrell, former President of the European Parliament, and Alberto Festa, former CEO of Bulgari USA</li></ul>   |   |                                  |

---

## SPORTS

---

- |  |                          |                                |
|--|--------------------------|--------------------------------|
| <b>Varsity Team</b>  | <b>Fencing</b>           | <b>Fall 2014 - Spring 2016</b> |
| <ul style="list-style-type: none"><li>• Starter on Harvard Fencing Varsity Team, 2015 Ivy League Champions</li></ul>   |                          |                                |
| <b>Italian National Team</b>   | <b>Modern Pentathlon</b> | <b>Summer 2012</b>             |
| <ul style="list-style-type: none"><li>• Member of the Italian National Pentathlon Team leading it to first victory at the International Budapest Competition 2012</li><li>• Ten years of competitive activity, with last four years of solo training</li></ul> |                          |                                |

---

## SKILLS AND INTERESTS

---

- Languages: Italian, French - native; German - intermediate; Chinese - beginner
- Proficient in Python, C/C++, C#, Java, JS, Mathematica, OCaml and SQL
